(a) Large scale residential, industrial, commercial, tax abated and tax exempt users. All large scale residential, industrial, commercial, tax abated and tax exempt users of municipal wastewater facilities shall be billed for such use on two bases. For purposes of this ordinance, such users shall be defined as all users identified as such by the regional sewer authority pursuant to the regulations of the United States Environmental Protection Agency, 35.929-1(b)(4).

- (1) Twice a year, each such user shall be billed for its share of the operating and maintenance costs borne by the regional sewer authority in the treatment of wastewater. These billings shall be based on a method of calculation approved by the United States Environmental Protection Agency which shall at a minimum reflect the volume of waste and the strength of that waste as measured by the parameters of biochemical oxygen demand (BOD) and suspended solids (SS) per unit volume. Calculation of the amount to be billed shall be done by the regional sewer authority, who shall present the bills to the City of Newark for distribution and collection of payments. Bills payable pursuant to this subsection shall be presented to the affected users on January 15th and July 15th of each year, or as soon as is practicable thereafter. Such bills shall be due and payable upon presentation.

- (2) In addition to such bills as payable pursuant to subsection (a)(1) of this ordinance, all large scale residential, industrial, commercial, tax abated and tax exempt users shall also be billed periodically for all other costs associated with the collection, transmission and treatment of wastewater.
- (i) As payment for their share of such other costs, such users shall pay a local sewer user charge to be billed at a rate of \$5.10 per 1,000 cubic feet of water supplied by the city.
 - (ii) As an alternative to (i), any such property owner may install metering equipment on his premises to measure the actual flow of sewerage into public wastewater facilities. The responsibility for the purchase, installation, and proper functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The local sewer user charge for property owners who elect direct actual metering shall be \$5.10 per metered 1,000 cubic feet of sewerage.
 - (iii) Property owners who are subject to the terms of this section and who obtain water, either in whole or in part from sources other than the city, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewerage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The local sewer user charge for these properties shall be \$5.10 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the city.
 - (iv) In the event that a property owner who is subject to the terms of this section shall prove to the satisfaction of the Director of Engineering that there is no substantial relation between the intake of water at the property, regardless of its source, and the output of sewage from the property, and if it be determined by Director of Engineering that it is not practicable to measure sewage emanating from the property by meters, then the property owner may elect to pay a user charge based upon engineering studies supported by substantial evidence. All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

August 5, 1992

- (v) In no event shall any property owner who is subject to the terms of this section utilizing municipally controlled sewers pay a local sewer user charge of less than \$10.20 per quarter.

10:15-11. ADMINISTRATION OF AGREEMENTS. - The Division of Tax Abatement and Special Tax shall be responsible to administer the terms of the agreement throughout the period of abatement and/or extension.

August 5, 1992

(Copy of transcript submitted to each Member of the Council)

(Board of Adjustment hearing held July 15, 1992)

(Transcript filed August 18, 1992)

The Board of Adjustment at its regular meeting held July 15, 1992, approved the application by 5 ayes, 1 nay and 1 abstention.

An appeal in this matter was filed in the Office of the City Clerk on August 7, 1992 by The Fleming Avenue/Brill Street/Christie Street/Richard Street Neighborhood Committee.

The transcript in connection with this matter was received on August 18, 1992, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On August 19, 1992, the City Clerk notified the applicant, the applicant's attorney and the appellants that an appeal in this matter would be heard by the Municipal Council at their regular meeting September 16, 1992, at 7:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

September 16, 1992

President Bradley stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the matter of application of Philip Hellriegel, applicant and owner, to permit in a 2ND Industrial Zone, the sale of cars, trucks and trailers which is permitted by conditional use only, and steel tubing storage which is not a permitted use on property located at 2-34 Brill Street, Newark, New Jersey. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

No one appearing.

Council Member Carrino requested Personnel Officer D'Auria's letter be placed in the minutes of this meeting.

This will clarify the need for the ordination of the title "Firefighter, Bilingual in Spanish and English" in the Department of Fire.

The City is in error by carrying 7 affected Fire employees in the title of Firefighter for twelve years when they have been permanent Firefighters, Bilingual in Spanish and English since 7-21-80.

The City must ordain the title to recognize these 7 persons who were permanently appointed to the title on 7-21-80 from a civil service certification for Firefighter, Bilingual in Spanish and English. It was recently learned that the New Jersey Department of Personnel's records indicate the 7 are serving as permanent Firefighters, Bilingual in Spanish and English because they had been appointed from that civil service certification. City records must be consistent with State records.

Moreover, these 7 Fire employees should not have to jeopardize permanency in their titles due to the City's bureaucratic oversight failing to officially ordain the title Firefighter, Bilingual in Spanish and English for the Department of Fire in 1980.

It was former Fire Director Caufield who saw a need for Bilingual Firefighters to assist Newark's population at the time and initiated a request that an open competitive examination be held for Firefighter Bilingual in Spanish and English. The current Fire Director maintains the same position.

There is no adverse financial impact in creating this title because the salary range is the same as Firefighter and there is no increase in head count.

The Division of Tax Abatement and Special taxes shall also maintain a copy of the approved certified total project cost audit within their permanent files.

10:11-7 - Administration of Agreements After Construction:

After the completion of construction and the issuance of a final certificate of occupancy, the project shall continue to operate within the terms of the agreement until its termination. The Division of Tax Abatement and Special Taxes shall be responsible to administer the terms of the agreement throughout this period, following the procedures set forth as follows:

a. Billing and Payment: Throughout the term of the agreement, the Tax Collector shall bill annually and the Division of Tax Abatement and Special Taxes shall bill the developer each quarter. If the agreement is authorized pursuant to N.J.S.A. 40A:20-1, et. seq., such bills shall reflect both the taxes due on the value of all land included within the project and all payments in lieu of taxes due on the improvements respectively required by the agreement. Regardless of the date of issuance, all such bills shall be deemed to have been issued on the first day of each calendar quarter and to be due and payable within thirty calendar days thereafter. Where in lieu payments are to be based on the actual annual financial performance of the project, such quarterly bills shall be payable in an amount estimated to be equal to the actual amounts due in the previous year. In such cases, the developer shall make an additional payment within ninety (90) days after the close of the fiscal year, and such payment shall be the difference between the estimated billing and the adjusted annual service charge which is based upon the actual financial performance of the project including any excess profits due and owing in accordance with N.J.S.A. 40A:20-1, et. seq. The additional payment by developer shall be submitted, along with a statement by a certified public accountant, attesting that the additional payment was the actual amount due based upon the gross revenue as derived in accordance with N.J.S.A. 40A:20-1, et. seq., and the financial agreement.

All payments due to the City arising out of the agreement which are not paid as of the date due shall be subject to the same charges for penalties and interest as arrears then in effect for non-payment of property taxes.

The Division of Tax Abatement and Special taxes shall accept all payments made pursuant to such billings and shall maintain books of account as to each agreement. Except where otherwise required by law, the Tax Collector and the Division of Tax Abatement and Special Taxes shall apply payments received to amounts due in the following order: amounts due for penalties and interest on taxes; amounts due for payments of taxes; amounts due for penalties and interest for in lieu payments; amounts due for in lieu payments. The developer shall be responsible to make timely payments directly to the Tax Collector and payments of annual service charges directly to the Tax Collector and payments of annual service charges directly to the Division of Tax Abatement and Special Taxes.

In addition to the payment of the annual service charge all owners shall be required to pay an annual administrative fee to the City. This condition shall be included in all deeds to such purchases. The annual

administrative fee shall be 2.5% of the annual service charge payable and due on or before December 31st of each year. In the event that the owner fails to pay the annual administrative fee it shall be grounds for the Corporation Counsel to take the necessary steps to terminate owners tax abatement.

b. Annual Audits: Where required by law or where required by the agreement, the developer shall submit an annual certified audit prepared by a certified public accountant of the financial performance of the project. Such audit shall be submitted each year within ninety days after the end of the fiscal year of the project to the Manager of the Division of Tax Abatement and Special Taxes with a simultaneous copy to the City Clerk for archival purposes. In addition to the submission of the annual certified audit, the developer shall submit a statement by a certified public accountant attesting to the percentage of excess profits utilized to eliminate any deficiencies pursuant to the provisions of N.J.S.A. 40A:20-15 and 16. The Division of Tax Abatement and Special Taxes shall review each audit upon submission and make a determination as to any adjustment required in the in lieu payment and excess profit. The attached Exhibit "A" shall be the approved format to be utilized in the calculation of excess profits.

The audit and the determination of the Division of Tax Abatement and Special Taxes shall then be submitted to the City's designated auditors for their review. If the determination of the Division of the Tax Abatement and Special Taxes is acceptable, it shall be used as the basis of the adjustments due and owing outlined in subsection 7a above. If the determination or the audit is not acceptable, the Division of Tax Abatement and Special Taxes shall notify the developer and the developer shall be responsible to remedy the deficiencies noted and to re-submit their corrected determination for review. As part of this annual audit process, the developer shall be responsible for the payment of a fee to offset the City's cost of review of the audit. Such fee will be in the actual amount incurred by the City to conduct such review. This fee shall be billed by the Division of Tax Abatement and Special Taxes as part of the annual service charge and shall be payable under the same terms as that charge.

c. Non-compliance: During the term of the agreement, if the developer fails to comply with the requirements for submission of audits and/or timely payments of amounts due, the Division of Tax Abatement and Special Taxes shall be responsible to enforce the terms of the agreement through the following procedure. Such procedure shall not be the sole remedy permitted to the City, but rather shall be used in addition to such other remedies as may be permitted under law and by the terms of the agreement.

i. In the case where any payment due to the City pursuant to the agreement, whether arising from taxes or payments in lieu of taxes, is in arrears for a period of six months or more, the Division of Tax Abatement and Special Taxes shall notify the developer that unless the total amount due including penalties and interest and subsequent charges, are brought to a current status within a period of thirty (30) days from the date of the notification, the abatement agreement shall be rescinded. If the developer fails to comply with such notice, the Division of Tax Abatement and Special Taxes shall recommend the Law Department prepare a resolution rescinding the agreement, and shall notify the Tax Assessor of the pending actions.

October 21, 1992

Where any agreement is rescinded in this manner, the developer shall have thirty calendar days to seek reinstatement of the agreement, which shall only be permitted where all performances required of the developer have been made current, and all amounts due and owing have been paid in full. In that case, the Division of Tax Abatement and Special Taxes shall recommend the Law Department to prepare a resolution to restore the agreement for the remainder of its original term.

It shall be the responsibility of the City Clerk to file and distribute approved copies of all resolutions to rescind or restore agreements which arise pursuant to this subsection, doing so in the same manner as set forth for the original executed agreements.

ii. In the event of any non-payment as outlined in section 7c(i) above, in addition to the remedies outlined therein, the developer in signing the agreement agrees that the City shall have the same rights of liens and foreclosure against the project as through the non-payment were the property taxes. The City may exercise such rights by following the same steps as set forth in law for the collection of delinquent property taxes.

iii. In the case where any audit required to be submitted pursuant to the agreement is delinquent for a period of three months or more from the date due, the Division of Tax Abatement and Special Taxes shall notify the developer that unless the audit is submitted in proper form within thirty days from the date of notification, the abatement agreement shall be rescinded. If the developer fails to comply with the requirements of the notice, the Division of Tax Abatement and Special Taxes shall recommend the Law Department prepare a resolution rescinding the agreement, and after its adoption shall thereafter treat the property as fully taxable.

Where any agreement is rescinded in this manner, the remaining procedure shall be the same as set forth in subsection 7c(i) above. The City may, however, as its option, choose not to exercise its rights of termination of the agreement for failure to submit a required audit but to cause an equivalent audit to be conducted by qualified personnel under the City's direction. Where this option is chosen, the City shall be empowered to utilize the resulting audit as the basis for billing as if it had been submitted by the developer, and shall further have the right to bill the project, as part of the annual service charge, for the entirety of the cost of conducting such audit, without limit. Use by the City of this option shall not in any way limit the City from exercising its rights of termination of the agreement at any subsequent time.

iv. In the case where the developer fails to comply with any other material provisions of the agreement, the Division of Tax Abatement and Special Taxes shall notify the Council of the defect in the performance of the developer. The Corporation Counsel shall thereupon take those steps necessary to declare the agreement void and such other actions as set forth in subsection (6) (d)(ii).

10:11-8. Tax Abatement Ineligibility

Notwithstanding anything to the contrary, no tax abatement shall be granted for any project seeking the following:

October 21, 1992

(a) construction or development of a residential condominium project consisting of less than five (5) units.

(b) construction or development of an industrial project.

They shall be available for examination and distribution to the public during regular business hours.

The Corporation Counsel may from time to time make technical and legal changes not affecting the substance of these documents.

SECTION 2. Severability

If any provision of this Ordinance is legally invalid or is hereafter found to be legally invalid, the remainder of the ordinance shall remain in force and effect.

SECTION 3. Non-Limitation

Nothing contained in this ordinance shall be so construed as to limit or deprive the City of any rights or privileges which are now in the future conferred on the City by State law and federal statute.

DECLARATION OF PURPOSE OF ARTICLE; FINDINGS

In the City of Newark, with its large cosmopolitan population, consisting of all the races and nationalities, religious and ethnic groups which constitute America, no greater menace threatens the peace, good order, security and welfare of the City and its inhabitants than the existence within it of groups antagonistic to one another and prejudiced against each other because of differences of race, creed, color, national origin, ancestry, marital status, sex or age.

The City of Newark also recognizes the special problems of prejudice experienced by those citizens who are physically or mentally handicapped.

The Council of the City hereby finds and declares that the practice of prejudice, intolerance, bigotry and discrimination and the disorder occasioned thereby, tends to create breaches of the peace and threatens not only the rights and proper privileges of its inhabitants but menaces the institutions and foundation of a free democratic state. To the end that such prejudice, intolerance, bigotry and discrimination shall be stamped out, this commission is created to provide an instrumentality through which the City may officially encourage and bring about mutual understanding and respect by all groups in the City, eliminate prejudice, intolerance, bigotry, discrimination and disorder and help give effect to the guarantee of equal rights for all as assured by the constitution and laws of the State.

At the request of the Manager of the Division of Tax Abatement and Special Taxes, an Officer of the Police Department and an Inspector of the Department of Land Use Control shall conduct an investigation of the complaint and report there findings to the Manager at the hearing which he shall conduct, of the matter. If he finds by the preponderance of the evidence presented that the location and use of the pay telephone constitutes a threat to the health and welfare of the community, he shall revoke any permit issued by his Department for the use of the pay telephone. He may also order such other relief as he deems fair, including requiring the pay telephone to be restricted to outgoing calls only.

November 16, 1992

- (b) A "threat to the health and welfare of the community" shall mean that because of the continuing physical location of the pay telephone the public has become endangered by the use of the area around the phone because of (1) criminal activity or because a pay telephone alone or in conjunction with other pay telephones interferes with the use and enjoyment of the area by pedestrians, motorists, (2) emergency personnel and occupants of the abutting property by impeding unnecessarily their ability to see other pedestrians or vehicles or by (3) impeding unnecessarily their ability to move or stand on the sidewalk.
- (c) In addition to any action the Manager may take, if the Manager of the Division of Tax Abatement and Special Taxes after a hearing finds that a distributor has repeatedly violated the terms of this ordinance on three prior occasions within one year, the Manager shall suspend the issuance of any license(s) to the distributor for the placement of any additional pay phones for one year.
- (d) After the revocation of any license by the Manager of the Division of Tax Abatement and Special Taxes, the Manager shall immediately order the owner of the pay telephone whose license has been revoked to remove the pay telephone and to remove any booth, post or support upon which the pay phone rests and to restore the sidewalk so that it is safe for pedestrian use. The pay phone referred to herein shall be removed within 24 hours of the receipt of the order issued by the Manager. The order to remove the phone shall be sent by certified and regular mail to the address of the registered owner of the license.

If it appears that the pay phone has not been completely removed within 48 hours after the notice to remove has been received at the last known address of the owner, then the Manager shall notify the Director of the Department of Engineering of the continued presence of the unlicensed pay phone. The Director shall forthwith remove the pay phone and restore the premises so that it is safe for pedestrian use. The Director shall declare and certify the cost of the removal of the phone. This cost shall be a debt owed by the license holder and owner of the phone and it shall be payable by the owner of the phone or the license holder upon the demand of the City of Newark. The notice to remove the pay phone shall be deemed to have been received if it is sent by regular mail even if the certified mail notice is unclaimed.

22:23-7 - Application of Ordinance to Existing Pay Telephones

All existing pay telephones located on or above public sidewalks within the City of Newark shall be deemed a nonconforming use that shall be permitted by this ordinance, provided, however, that any Distributor desiring that its pay telephones be so designated must notify in writing the Manager of the Division of Tax Abatements and Special Taxes within thirty (30) days of the effective date of this ordinance of the locations of all of said Distributor's pay telephones existing on the date of adoption of this ordinance. A registration and license shall be applied for and shall be a prerequisite for the continued location of any such phone. All pay telephones not so identified shall not be entitled to be considered as nonconforming uses permitted by this ordinance.

November 16, 1992

The provisions of this ordinance shall, however, apply to all future pay telephones located on or above public sidewalks within the City of Newark.

22:23-8 - Violation

Any violation of this ordinance shall subject the violator to a fine of not less than \$100.00 nor more than \$1,000.00. Each noncomplying pay telephone violation will constitute a separate violation.

SECTION 2: Any ordinance or parts thereof inconsistent with the provisions herein be and are hereby repealed.

- (b) A "threat to the health and welfare of the community" shall mean that because of the continuing physical location of the pay telephone the public has become endangered by the use of the area around the phone because of (1) criminal activity or because a pay telephone alone or in conjunction with other pay telephones interferes with the use and enjoyment of the area by pedestrians, motorists, (2) emergency personnel and occupants of the abutting property by impeding unnecessarily their ability to see other pedestrians or vehicles or by (3) impeding unnecessarily their ability to move or stand on the sidewalk.
- (c) In addition to any action the Manager may take, if the Manager of the Division of Tax Abatement and Special Taxes after a hearing finds that a distributor has repeatedly violated the terms of this ordinance on three prior occasions within one year, the Manager shall suspend the issuance of any license(s) to the distributor for the placement of any additional pay phones for one year.
- (d) After the revocation of any license by the Manager of the Division of Tax Abatement and Special Taxes, the Manager shall immediately order the owner of the pay telephone whose license has been revoked to remove the pay telephone and to remove any booth, post or support upon which the pay phone rests and to restore the sidewalk so that it is safe for pedestrian use. The pay phone referred to herein shall be removed within 24 hours of the receipt of

the order issued by the Manager. The order to remove the phone shall be sent by certified and regular mail to the address of the registered owner of the license.

If it appears that the pay phone has not been completely removed within 48 hours after the notice to remove has been received at the last known address of the owner, then the Manager shall notify the Director of the Department of Engineering of the continued presence of the unlicensed pay phone. The Director shall forthwith remove the pay phone and restore the premises so that it is safe for pedestrian use. The Director shall declare and certify the cost of the removal of the phone. This cost shall be a debt owed by the license holder and owner of the phone and it shall be payable by the owner of the phone or the license holder upon the demand of the City of Newark. The notice to remove the pay phone shall be deemed to have been received if it is sent by regular mail even if the certified mail notice is unclaimed.

21:5-3. Rates of sewer user charges.

(a) Large scale residential, industrial, commercial, tax abated and tax exempt users. All large scale residential, industrial, commercial, tax abated and tax exempt users of municipal wastewater facilities shall be billed for such use on two bases. For purposes of this ordinance, such users shall be defined as all users identified as such by the regional sewer authority pursuant to the regulations of the United States Environmental Protection Agency, 35.929-1(b)(4).

- (1) Twice a year, each such user shall be billed for its share of the operating and maintenance costs borne by the regional sewer authority in the treatment of wastewater. These billings shall be based on a method of calculation approved by the United States Environmental Protection Agency which shall at a minimum reflect the volume of waste and the strength of that waste as measured by the parameters of biochemical oxygen demand (BOD) and suspended solids (SS) per unit volume. Calculation of the amount to be billed shall be done by the regional sewer authority, who shall present the bills to the City of Newark for distribution and collection of payments.

Bills payable pursuant to this subsection shall be presented to the affected users on January 15th and July 15th of each year, or as soon as is practicable thereafter. Such bills shall be due and payable upon presentation.

- (2) In addition to such bills as payable pursuant to subsection (a)(1) of this ordinance, all large scale residential, industrial, commercial, tax abated and tax exempt users shall also be billed periodically for all other costs associated with the collection, transmission and treatment of wastewater.

- (i) As payment for their share of such other costs, such users shall pay a local sewer user charge to be billed at a rate of \$5.10 per 1,000 cubic feet of water supplied by the city.

- (ii) As an alternative to (i), any such property owner may install metering equipment on his premises to measure the actual flow of sewerage into public wastewater facilities. The responsibility for the purchase, installation, and proper functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The local sewer user charge for property owners who elect direct actual metering shall be \$5.10 per metered 1,000 cubic feet of sewerage.

(iii) Property owners who are subject to the terms of this section and who obtain water, either in whole or in part from sources other than the city, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewerage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The local sewer user charge for these properties shall be \$5.10 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the city.
